

Animal Clinic of Michigan City

Veterinary Pet Insurance

At the Animal Clinic of Michigan City, we approach veterinary medicine in a unique manner to prevent problems. Our wellness approach to health care is tailored to locate diseases while they are still preventable. Our philosophy is “an ounce of prevention is worth a pound of cure!!”

Even though preventative medicine will give your pet a longer and healthier life, accidents and emergencies do occur. When those emergencies happen, they can be life threatening and expensive. When emergencies do occur, the decision to treat the emergency should be based on what is in our friend’s best interest and not upon the cost of treatment. To help in emergency situations, we at the Animal Clinic of Michigan City accept Pet Insurance and Care Credit (www.carecredit.com/practices/veterinary).

Pet Insurance has been around for more than 20 years and can cover up to 80% of the cost of emergencies and accidents. Added insurance can even cover the cost of annual visits and heartworm and flea prevention. The following are a list of Pet Insurance companies available:
